Proposed Rule 474, *Petroleum Refining Properties*, clarifies the requirements under article XIII, section 1, and article XIII A, section 2, of the California Constitution for the valuation of real property, personal property, and fixtures used to refine petroleum.

Proposed Rule 474 will (1) define “petroleum refining property;” and (2) establish a rebuttable presumption for purposes of recognizing declines in value that fixtures and machinery and equipment classified as improvements for a petroleum refining property are part of the same appraisal unit as the land and structures. The presumption must be overcome before fixtures are treated as a separate appraisal unit for declines in value, except when measuring declines in value caused by disaster, in which case land constitutes a separate appraisal unit.
